

Lakeland's Little Learners
Jackson Wrap-Around
May 2021
Lesson Plan

Animals Around the World

Making a Terrarium

We hope to build a self-sustaining terrarium/ glass garden which is a clear container used for growing plants. In it we will put plants that we will research on our chrome books to be self-sustaining. We hope to discover what fauna need to survive in such an environment.

Goal: *Environmental Learning, STEM, Media and Technology*

Building an Ecosystem

As we discuss the many environments around the world and the animals that live in them, the students will work safely in groups to create a desert, forest, grassland, and tundra ecosystem inside a shoebox. They will present their work before the friends in our program.

Goal: *Global Learning, Environmental Learning, Social Emotional Development/ Character Education*

Outdoor Adventure Hunt

Moving throughout our playground, students will take part in a search for animals found in our environment; birds, bugs, worms, etc.

Goal: *Health and Wellness; Environmental Learning*

Marble Art

As we learn together about what animals use camouflage and why it is important, the students will make marble art (painting with balls and marbles) of the animals of their choice.

Goal: *Arts and Culture*

Donations to our Local Animal Shelter

We will help Lakeland Animal Shelter with our donations of items on their wish list used to care for the needs of the animals.

Goal: *Service Learning*

Peek-in to a Zoo

The students will come up with questions to email a zoo keeper. We will look in on zoo animals using real-time cam opportunities.

Goal: *Language, Literacy, and Numeracy; Media and Technology*

Visit and Correspond

The students will participate in a virtual visit and have the opportunity to correspond with an Advanced Wildlife Rehabilitator, Wildlife Biologist working with the Fellow Mortals Wildlife Hospital in Lake Geneva.

Goal: *Environmental Learning; Language, Literacy and Numeracy*
